

02 | The Museum

The Museum

奉贤博物馆由三个钢结构椭圆柱体组成，由藤本壮介事务所担当设计，集合展览、公园、绿地、书店、教育中心等于一体，是南上海充满活力的公共文化景观。

双年展将以新落成的奉贤博物馆为驻地。博物馆由已建于奉贤南桥的“上海之鱼”区域，2019年5月已经对外开放。作为奉贤区的城市规划馆和博物馆的有机融合体，将记录奉贤发展的足迹，讲述奉贤的过去、现在和未来。其落成的崭新临展主题展厅，也将是承载我们这次双年展的主展馆。其展览效果令人充满期待。

Designed by Sou Fujimoto Architects, the Fengxian Museum is composed of three steel elliptical cylinders. Integrating exhibition spaces, parks, lawns, a bookstore, an education center and a café, it is a vibrant cultural hub of Shanghai.

The Museum will play host to the Biennale. Located in the Jinhai Lake area, it was open to the public in May 2019. Assuming the dual roles of an exhibition hall for Fengxian District's urban planning and a museum, the Fengxian Museum will bear witness to the district's development step by step. The new temporary exhibition halls will be the main venues for the Biennale.
